SUMIT KUMAR BHARTI

Lucknow, Uttar Pradesh, India • sumit.ku5981@gmail.com • +91-8810845474
LinkedIn • GitHub

PROFESSIONAL SUMMARY

Final-year Computer Science & Engineering student specialising in Artificial Intelligence and Data Science, currently gaining hands-on industry experience as a Machine Learning Intern at FlyRank AI. Proven track record of building and deploying end-to-end ML applications, with strong skills in Python, Scikit-learn, and data visualisation. Actively expanding expertise in Generative AI, RAG systems, and LLMs through applied academic and industry projects.

EXPERIENCE

Machine Learning Intern — FlyRank AI
Remote • June 2026 – Present

- Build and evaluate machine learning models for real-world use cases, translating academic training in model development and data analysis into production-oriented outcomes.
- Partner with cross-functional engineering teams on data pipelines and model deployment, gaining direct, hands-on exposure to industry ML practices.

PROJECTS

GyanVerse AI — RAG-Based Intelligent QnA System

- Final-year project: built a Retrieval-Augmented Generation (RAG) system for intelligent question-answering, combining Sentence Transformers with FAISS/ChromaDB for semantic search.
- Integrated GPT/LLaMA-based generation with a Streamlit interface for real-time, context-aware responses; developed collaboratively with a 3-member team.
- Tech Stack: Python, Sentence Transformers, FAISS, ChromaDB, LLMs (GPT/LLaMA), Streamlit

Airline Delay Prediction — ML Classification — github.com/Sumit2003-dev/Airlines-Delay-Prediction

- Built a binary classification model to predict flight delays using historical aviation data; achieved ~88% accuracy on test data.
- Performed end-to-end pipeline: data cleaning, feature engineering, model selection, and evaluation using cross-validation.
- Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib

Student Performance Prediction Web Application — nextgrade.netlify.app

- Developed a full-stack ML web application that predicts student academic performance in real time.
- Trained regression models on 1,000+ student records, achieving an R^2 score of ~0.86 (~92% directional accuracy).
- Integrated ML model with a responsive front-end; deployed live at nextgrade.netlify.app for end-user access.
- Tech Stack: Python, Scikit-learn, Flask, HTML/CSS, Netlify

RESEARCH

- Co-authored "AI-Based Exam Proctoring System" research paper, supervised by Mrs. Anamika Sharma (SRMU) — explored ML/CV techniques for automated academic integrity monitoring.

EDUCATION

Shri Ramswaroop Memorial University (SRMU) — Barabanki, Uttar Pradesh
B.Tech — Computer Science & Engineering (AI & Data Science) • 2023 – 2027 (Final Year)
GPA: 8.37 / 10 (approx. 83.7%) • Relevant: Machine Learning, Data Science, Statistical Analysis, AI, DSA, Big Data Analytics, Data Visualisation

PM Shri Kendriya Vidyalaya — Lucknow, Uttar Pradesh
Senior Secondary (CBSE) — 75.4% • 2023

Army Public School Binnaguri — West Bengal
Secondary (CBSE) — 87.6% • 2021

TECHNICAL SKILLS

Programming Languages: Python (Advanced) • Java (Intermediate) • SQL / MySQL (Intermediate)
Machine Learning & GenAI: Supervised & Unsupervised Learning • Feature Engineering • Model Building & Evaluation • RAG • LLMs (GPT/LLaMA) • Sentence Transformers
Data Analysis & Visualisation: Data Cleaning & EDA • Statistical Analysis • Power BI • Tableau
Libraries & Frameworks: NumPy • Pandas • Matplotlib • Scikit-learn • FAISS • ChromaDB • Flask (Basic) • REST APIs (Basic)

Tools & Platforms: Jupyter Notebook • Git • GitHub • Streamlit • IBM SPSS Modeler • IBM Cognos Analytics • IBM Watson Studio • IBM Cloud • Google Cloud Platform

LEADERSHIP & ACTIVITIES

Social Media Club — SRMU | Joint Secretary & Management Head
Lucknow • Oct 2025 – Present

- Spearhead data-driven social media strategies, tracking engagement metrics across 10+ university events to improve outreach by an estimated 25%.
- Oversee management operations for the club while coordinating cross-functional teams for event planning and end-to-end logistics for large-scale student events (200+ attendees).

Internal Hackathon — SRMU | Volunteer
Lucknow • Feb – Mar 2025

- Managed participant coordination and team logistics for a 100+ student hackathon, ensuring smooth execution across all phases.
- Facilitated communication between participants, mentors, and organisers, contributing to a well-received event outcome.

CERTIFICATES & SIMULATIONS

- Google Data Analytics Professional Certificate — Coursera | Score: 94.87%
- AI Fluency: Framework & Foundations — Anthropic
- Introduction to Claude & Claude 101 — Anthropic
- IBM SkillsBuild — Generative AI and AI Agent Learning Plan | In Progress, 2026
- NPTEL Elite Certificate — Data Analytics with Python | IIT Roorkee | Jan–Apr 2026 | Score: 65%
- Generative AI Essentials — AI for All Program | MPIT-CoE & TCS Foundation via TCS iON | Apr 2026
- Quantium Data Analytics Job Simulation
- Tata GenAI Powered Data Analytics Job Simulation
- Deloitte Australia Data Analytics Job Simulation
- Smart India Hackathon 2025 — Certificate of Participation | SRMU Internal Round
- Hack-A-Thon — VIVEKA: The Intelligence 5.0 (Techfest 2k26) | Tech Fusion Club, SRMU | Feb 2026 | Top 10 Finish
